Medan, Medan City

I am a student in the Information Systems study program at IT DEL, accepted through the achievement pathway. I possess a strong passion for data processing, marketing, and AI. I have been actively involved in various social and academic activities since my vocational school days, and have contributed to organizations and committees. I possess skills in public speaking, effective communication, team collaboration, and social adaptation. I am ready to develop and contribute optimally in a technology- and innovation-based campus environment.
